

Empowering Social Service Professionals

Trainings on Public Benefits and Housing Programs

Request a virtual course for your team!

We can provide group training at a date and time that work best for your team. Choose from an array of courses on public benefit and housing programs with the ability to customize course materials to meet your staff development needs. All our training courses are approved for continuing education*. [Click here](#) for a catalog of our courses.

Currently, all of our courses are conducted virtually using our *GoTo Webinar* platform. We will facilitate the registration process and provide a customized flyer to promote the course to your team.

All attendees will receive up-to-date course materials, and a support person will be on hand, the day of the webinar, to help troubleshoot attendees who are unable to login or have audio issues.

The cost will depend on:

- the number of courses you would like to have,
- how many people will attend,
- whether you want the course(s) to be available for continuing education credits for your staff, and
- whether the course needs to be customized to meet your needs.

For more information, please contact:
